1. What file contains the user's encrypted password in a highly protected file that can only be read by the root user?

   1 / 1 point

   ○ /etc/root

   ⦿ /etc/shadow

   ○ /etc/passwd

   ○ /etc/group

   > ✓ **Correct**
   > Correct! Shadow passwords store the encrypted passwords in a separate highly protected file, the /etc/shadow file. This file is readable only by the root user.

2. Which user account can use the passwd command to change the password for any user?

   1 / 1 point

   ○ Any user that has permissions to view the /etc/passwd file.

   ○ administrator

   ⦿ root

   ○ admin

   > ✓ **Correct**
   > Correct! The root account can use the passwd command to change the password for any user.

3. You want to add a user to a group. What command should you use?

   1 / 1 point

   ⦿ usermod -G

   ○ groupmod

   ○ groupadd

   ○ usermod

   > ✓ **Correct**
   > Correct! The usermod -G command is used to add a user to a group.
