Grade received 100%   **To pass** 100% or higher

1. In the command prompt, you execute the command ls -a. You notice a file named .bashrc. What does the period at the beginning of the file name signify?

1 / 1 point

○ The file is a system file.

⦿ The file is hidden.

○ The file is a script.

○ The file is the profile file.

✓ **Correct**
Correct! Using the ls command will not display hidden files which begin with a period. That is why you have to use the ls -a command.

2. You want to ensure that every new user has a file named policies.txt in their home directory the first time they log in. Where should you copy the policies.txt file?

1 / 1 point

○ /etc/defaultprofile

○ /etc/group

○ /etc/passwd

⦿ /etc/skel

✓ **Correct**
Correct! The /etc/skel directory gets copied to the user's home directory when the user account is created.
